E3/22GMU	700	1300	65%
E3/222GMU	950	1450	60%
E3/2222GMU	1050	1500	67%

*Tests conducted on Gamko coolers were carried out at customer sites in real life conditions. The test includes built-in and frequent opening of doors and replenishment with non-refrigerated bottles.

The E3 gives you:

- >  TotalChill technology means there are no 'hot spots' so all of the bottles or kegs are cooled equally and customers are served cold drinks
- >  Superior storage capacity of up to 722 bottles – makes 'bottling-up' more efficient for bar staff, along with faster service delivering a better customised experience
- >  Fast pull down time – fill E3 up and drinks are at the right temperature for the next shift!
- >  Crafted in The Netherlands - guaranteed exceptional product quality
- > Large glass surface area ensures fantastic visibility of the drinks on offer
- > Sleek and stylish design - brings customers to your bar
